

**REMARKS**

The forgoing amendment to the specification makes an editorial correction to paragraph [0062]. It is well known that Iodine Value (IV) is a measure of the degree of unsaturation not "hydrogenization". No new matter is added by this correction.

The foregoing amendments to the claims are made in order to prepare the newly filed application for examination and to remove multiple claim dependencies. It is respectfully submitted that no new matter is added by these amendments.

Respectfully submitted,

COOK, ALEX, MCFARRON, MANZO,  
CUMMINGS & MEHLER, LTD.
